

AMENDMENTS TO THE CLAIMS

Please cancel Claims 2, 5, 9 and 11-14; amend Claims 1, 3-4, 6-8, 10, and 15; and add new Claims 16 as follows. The following listing of claims will replace all prior versions and listings of claims in the application.

LISTING OF CLAIMS

1. (currently amended) An air conditioner for a compartment, comprising:

a first ~~air-conditioning~~ unit used for ~~performing~~ air conditioning ~~[[of]]~~ air provided to the compartment;

a second ~~air-conditioning~~ unit used for ~~performing~~ air conditioning ~~[[of]]~~ air provided to the compartment;

B/ a ~~plurality of pins~~ pin provided on at least one of the first and second air conditioning units;

a ~~plurality of an~~ attachment portions ~~each of~~ stay which has a hole, the ~~holes~~ hole of the attachment portions stay being provided in the other one of the first and second ~~air-conditioning~~ units at positions a position corresponding to the pins pin; and

a fastening member ~~which fastens both~~ for attaching the first and second ~~air-conditioning~~ units together after the pins ~~are~~ pin is fitted into the ~~holes~~ hole of the attachment portions stay, respectively, wherein

~~wherein at least one of the pins~~ pin has an engagement portion that is engaged with the ~~corresponding~~ attachment portion stay in a direction crossing with an insertion direction of the pin into the hole~~[[.]]~~ ; and

the engagement portion is a hook portion protruding in the direction crossing the insertion direction of the pin into the hole, and is provided at a top end of the pin in the insertion direction.

2. (cancelled)

3. (currently amended) The air conditioner according to ~~claim-2~~ Claim 1, wherein:

the attachment ~~portion~~ stay has a plate portion defining the hole, the plate portion having a flat surface and a predetermined thickness;

the hole is provided in the plate portion to penetrate through the plate portion; and

B1 the hook portion is engaged with the plate portion of the attachment ~~portion~~ stay.

4. (currently amended) The air conditioner according to ~~claim-2~~ Claim 1, wherein the hook portion is at an upper side of the pin in a vertical direction.

5. (cancelled)

6. (currently amended) The air conditioner according to ~~claim-2~~ Claim 1, wherein:

the pin is provided to protrude to the insertion direction from a wall surface of the one of the first and second air-conditioning units;

the hook portion is provided to form a recess between the hook portion and the wall surface; and

the plate portion of the attachment ~~portion~~ stay is disposed to be engaged with the recess after the pin is inserted into the hole.

7. (currently amended) The air conditioner according to ~~claim~~ Claim 6, wherein:

the pin is disposed to be inserted into the hole horizontally; and

the plate portion of the attachment ~~portion~~ stay and the recess are engaged in the vertical direction.

31 8. (currently amended) The air conditioner according to ~~claim~~ Claim 6, wherein the predetermined thickness of the plate portion is ~~approximately~~ equal to or less than a width ~~a dimension~~ of the recess in the insertion direction.

9. (cancelled)

10. (currently amended) The air conditioner according to ~~claim-2~~ Claim 1, wherein the hole is ~~[[an]] elongated hole~~.

11-14. (cancelled)

15. (currently amended) The air conditioner according to Claim 1, wherein:
the first ~~air-conditioning~~ air unit is an inside/outside air unit disposed for introducing air therein and for blowing the introduced air; and

the second ~~air-conditioning~~ unit is an air temperature adjusting unit for cooling and heating air blown from the inside/outside air unit, the air temperature adjusting unit being disposed to adjust temperature of air to be blown into the compartment.

B1

16. (new) The air conditioner according to Claim 1, wherein:
the pin is provided to protrude in the insertion direction from a wall surface of one of the first and second units; and

the pin has a cross shape in cross-section.
